ABSTRACT

The three tests that make up this instrument are designed to assess the oral communication, grammatical fluency, and vocabulary development of students for whom English is a second language. The spoken English test comes in two versions: one with 90 items on a cassette tape, the other with 90 items to be read aloud by the examiner. Each version is available in three forms that employ a multiple-choice format requiring the selection of the semantically and grammatically correct response. Two levels of the grammar test have been developed; Form O is for the primary grades, the Forms A, B, and C are for secondary and higher education students. The forms of the vocabulary test are targeted in the same way as the grammar exam. (This document is one of those reviewed in The Research Instruments Project (TRIP) monograph "Measures for Research and Evaluation in the English Language Arts, Volume 2," published by the Committee on Research of the National Council of Teachers of English in cooperation with the ERIC Clearinghouse on Reading and Communication Skills. The TRIP review, included here as an introduction to the instrument, describes the instrument's category (language), title, author, date, age range (primary through adult), purpose, and physical characteristics.) The measurement instruments contained in this document have been reviewed in a monograph (cited below) edited by William T. Fagan, Charles Cooper, and Julie Jensen, for The Research Instruments Project (TRIP), and funded by a grant from the Trustees of the NCTE Research Foundation:

Measures for Research and Evaluation
in the
English Language Arts
Volume II

The purpose of the editors has been to select and review measurement instruments pertaining to all aspects of research and evaluation in the English language arts, e.g. language and language development, literacy, literature, reading (including comprehension, teacher-pupil interaction, etc.), writing, and teacher knowledge and attitudes. In order to make some of the actual instruments reviewed more readily available, the ERIC Clearinghouse on Reading and Communication Skills (ERIC/RCS) has cooperated with the editors by processing selected instruments into the ERIC system (see the 42 documents assigned Clearinghouse accession numbers CS 207 904-945).

Category: Language and Language Development

Titles:
1) The Standard English as a Second Language (S-ESL) Spoken English Test
2) The S-ESL Grammar Test
3) The S-ESL Vocabulary Test

Author: Elray L. Pederson

Age Range: Primary Grades through Adult

Description of Instrument:

Purpose: To assess the 1) oral communication, 2) grammatical fluency, and 3) vocabulary development of students for whom English is a second language.

Date of Construction: 1978

Physical Description:

1) Two forms of the Spoken English Test are available. Form T is a cassette tape recording of ninety items; Form W is a written test of ninety items to be read aloud by the examiner. Three alternate forms--A, B, and C--are available for both tests. Each form employs a multiple-choice format requiring the selection of the semantically and grammatically correct response. The test does not assume knowledge of grammatical terminology. Each test is of twenty minutes duration and may be machine or hand scored. Example:

"Did you sleep well?"

a) I sleeping well.
b) I slept well.
c) I am sleeping well.

---

2) Two levels of the Grammar Test have been developed: Form O tests the grammatical fluency of primary graders; Forms A, B, and C are similar tests for secondary or college and university students. The thirty-five questions on each form require no formal knowledge of grammatical terminology, require fifteen minutes to complete, and can be machine or hand scored.
Example:

"_____your name for me."

a) Write
b) Wrote
c) Writes
d) Written

---

3) Two forms of the Vocabulary Test are available. Their names and audiences are comparable to those of the Grammar Test. Each form consists of thirty-seven multiple-choice questions of three types: the student fills in a blank with a syntactically and semantically appropriate choice; the student responds to a question about the meaning, value, or usage of underlined words; the student matches a brief description with one of the choices provided. Administration of each form requires fifteen minutes, and the tests can be machine or hand stored. Items come from survival and daily life contexts. Following is one example of each of the three items types:

"The _____ told the members of her class goodbye."
a) music
b) statement
c) yellow
d) teacher

"1988 will be a _____ to remember."
a) day
b) month
c) year
d) summer

"One cent is how much money?"
a) a penny
b) a nickel
c) a dime
d) a dollar

Validity, Reliability, and Normative Data:

The tests are used in the English as a Second Language Program at Weber State College in Ogden, Utah. Test items are patterned after those appearing on such tests as "The Michigan Language Test," "The Test of English as a Foreign Language" (TOEFL), and the "ETS English Language Proficiency Test." No reliability data are available.

S-ESL SPOKEN ENGLISH TEST (The Standard English as a Second Language Spoken English Test)

INSTRUCTION SHEET Tests A, B, C,

TEST OF COMPREHENSION OF SPOKEN ENGLISH

This is a test of your ability to understand spoken English. There are 90 problems in this test. The voice on the tape will either ask a question or make a statement. When a question is asked, look at the three choices printed in your test booklet. Then choose the one answer that seems to be best.

FOR EXAMPLE: Look at the question printed below.
Listen carefully.

YOU WILL HEAR A VOICE SAY: "Are you busy?"

LOOK AT THE ANSWERS IN YOUR TEST BOOKLET:

a) Yes, I am.
b) Yes, you are.
c) Yes, he is.

Choice a) Yes, I am is the correct answer. You should put an X through choice a on your answer sheet to show that "Yes, I am" is the correct answer. Answer all question problems this way.

When the examiner makes a statement, you are to choose the one answer that shows you understand the statement.

FOR EXAMPLE: Look at the statement printed below.
Listen carefully.

YOU WILL HEAR A VOICE SAY: "I've just begun."

LOOK AT THE ANSWERS IN YOUR TEST BOOKLET:

a) I am almost finished.
b) I just finished.
c) I just started.

Choice c) I just started means about the same thing as "I've just begun." You should put an X in space c on your answer sheet to show that it is the only correct answer for this example.

Mark only one answer for each problem.

Be as quiet as possible.

This test takes twenty minutes for the ninety questions.

When you are finished, take your test booklet and your answer sheet to the person at the desk.

You may now begin.

TEST OF COMPREHENSION OF SPOKEN ENGLISH

This is a test of your ability to understand spoken English. There are 90 problems in this test. The voice on the tape will either ask a question or make a statement. When a question is asked, look at the three choices printed in your test booklet. Then choose the one answer that seems to be best.

FOR EXAMPLE: Look at the question printed below.
Listen carefully.

YOU WILL HEAR A VOICE SAY: "Are you busy?"

LOOK AT THE ANSWERS IN YOUR TEST BOOKLET:

a) Yes, I am.
b) Yes, you are.
c) Yes, he is.

Choice a) Yes, I am is the correct answer. You should put an X through choice a on your answer sheet to show that "Yes, I am" is the correct answer. Answer all question problems this way.

When the examiner makes a statement, you are to choose the one answer that shows you understand the statement.

FOR EXAMPLE: Look at the statement printed below.
Listen carefully.

YOU WILL HEAR A VOICE SAY: "I've just begun."

LOOK AT THE ANSWERS IN YOUR TEST BOOKLET:

a) I am almost finished.
b) I just finished.
